

Get password

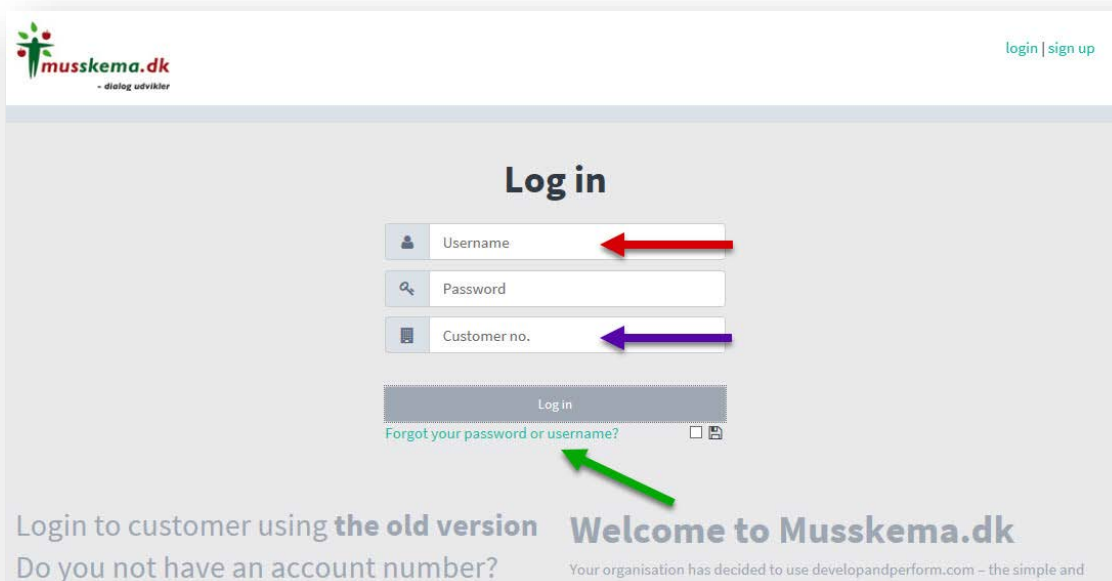

Go to the website: www.musskema.dk – and click by the red arrow: Login.

Now write the username (usually your e-mail address), with which you are known in the system (by the red arrow) – and click enter; the system will recognise your mail/username and will automatically fill in the contract number (purple arrow).

Or if you know your contract number you can just write it yourself...

Now click on Forgotten password or username (Green arrow).

You will now see the screen below, in which the contact number has already been filled in. If it hasn't, then write it yourself! And then input your e-mail address (Red arrow) – and click: Send instructions (Green arrow).

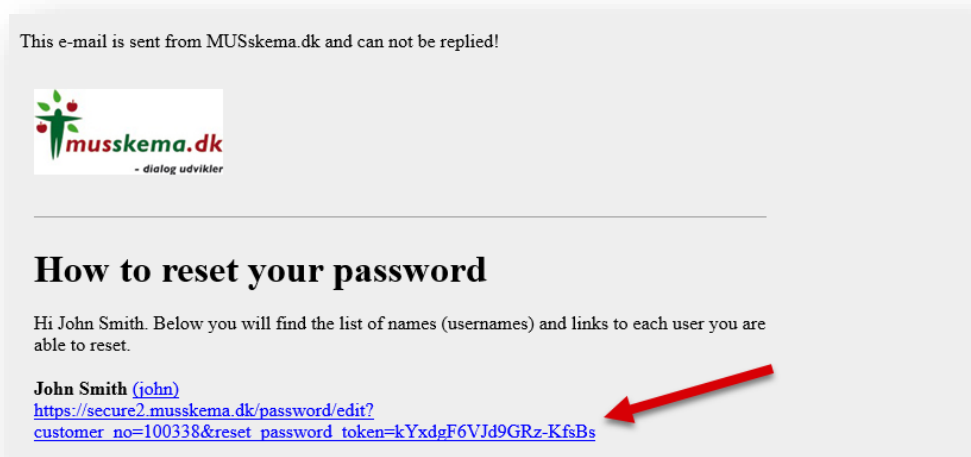

Create your password

←
 Fill in your customer no and e-mail to receive a link to reset password. If you are missing emails from Musskema.dk, please check your email account's Spam or Junk folder to ensure the message was not filtered.

The system will send you an e-mail looking like this – and where all that you have to do is to click on the long string (Red arrow):

Then this screen will appear and you input the password that you want – it should be exactly the same in both fields (Red arrow) – and click: Save your new password (Green arrow).

Create your password

New password Create a new password - must be at least 8 characters. Order a new e-mail to reset [here](#).

By now you should be inside the system and can begin to work – and your password is saved in the system... But it depends on your browser whether it is also saved on your PC or whether you have to remember it yourself!
