✉ Send options Participants **📄 Team data**

In addition to an individual resume and action plan (see the instructions for 'The WPA dialogue') it is also possible to create a group resume with an action plan. Click on 'Team data' (blue arrow). Then click 'Group resume' (red arrow). The questionnaire has been shortened to only show the headlines, so that the group resume will be divided into subjects. Once the resume is done, the questionnaire is completed and a resume is sent to all participants. The group resume is also available from the individual resume of each employee (green arrow).
